Profile

Business Development and Product Development professional with 5+ years of experience delivering high-impact projects across fintech, loyalty programs, tourism, airlines, and government sectors. Experienced in end-to-end project planning and execution from initiation to closure. PMI-PBA certified Business Analysis professional with a strong track record in identifying revenue opportunities, conducting market research and analysis, and securing strategic partnerships. Skilled in leveraging data-driven insights to build scalable products, drive revenue growth, and support sustainable business expansion.

Professional Experience

Business Development Lead

Resal Technology Company

Apr 2024 – present
Jeddah, Saudi Arabia

- Led market research to identify growth opportunities, market gaps, and new revenue streams, driving strategic direction for product and business expansion.
- Enhanced product offerings by defining clear product vision, strategy, and roadmaps aligned with market trends, customer needs, and revenue objectives.
- Owned end-to-end business development strategy, including RFP evaluation, solution design, and development of technical and commercial proposals, managing full project lifecycle from initiation to closure.
- Led product development initiatives in collaboration with cross-functional teams, overseeing requirements definition, feature prioritization, and delivery of enhancements aligned with market and client needs.
- Led client engagements and negotiations, acting as key decision-maker in strategic discussions and partnership development.
- Oversaw KPI tracking and performance analysis to optimize revenue growth, improve product performance, and enhance overall business outcomes.

Sr. Business Development Specialist

Resal Technology Company

Apr 2023 – Apr 2024
Jeddah, Saudi Arabia

- Conducted market research and competitor analysis to identify client needs, market gaps, and potential business opportunities.
- Managed end-to-end tender processes via Eitamad, including RFP analysis, proposal preparation, client meetings, and negotiation support through to project closure.
- Managed full project lifecycle from initiation to closure, ensuring alignment with client requirements, timelines, and deliverables.
- Prepared and presented technical and financial proposals in collaboration with product and technical teams.
- Built and maintained strong client relationships, acting as a key point of contact for follow-ups and ongoing engagement.
- Tracked and analyzed performance metrics to support revenue optimization and business improvement initiatives.

Business Development Specialist

Resal Technology Company

Apr 2022 – Apr 2023
Jeddah, Saudi Arabia

- Conducted competitive analysis and benchmarking to identify market gaps, differentiation opportunities, and innovation potential across new business initiatives and projects.
- Developed business cases and feasibility studies by analyzing costs, revenue projections, and strategic alignment, supporting leadership in data-driven investment decisions.
- Managed lead generation and prospecting efforts through market research, outreach, and early-stage negotiations.

- Created tailored proposals and presentations for prospective clients, clearly communicating value propositions and solution benefits.
- Represented the company at major industry events, delivering impactful presentations and building relationships with potential clients and partners.

Business Development Specialist

Wadi Makkah Technology Company

Sep 2020 – Mar 2022

Makkah, Saudi Arabia

- Conducted research to identify new business initiatives and opportunities, supporting the development of products and services.
- Developed and executed marketing activities to enhance product visibility, engagement, and market reach.
- Defined project concepts and scope, prepared business cases, and conducted financial analysis to assess costs, revenue potential, and strategic alignment.
- Gathered business requirements through stakeholder engagement, interviews, and surveys to ensure solutions aligned with market needs.
- Monitored initiatives, projects, and activities to ensure timely execution and alignment with business objectives.
- Evaluated RFPs and prepared tailored technical and commercial proposals aligned with client requirements and organizational capabilities.
